Extended Warranty Announced for Future R22 & R44 Helicopters

Torrance, CA — The Robinson Helicopter Company limited warranty for new R22 and R44 helicopters ordered after 01 February 2002 has been increased from twelve months to twentyfour months. (All other terms and conditions of the Robinson limited warranty remain unchanged.) The reliability experience of both the two-seat R22 and four-seat R44 have made this warranty extension possible without a price increase or an additional surcharge.

The engine manufacturer, Lycoming, has also agreed to increase their warranty from one year to two years for engines installed in new Robinson R22 and R44 helicopters ordered after 01 February 2002. This again is made possible by the exceptional reliability record of Lycoming engines in Robinson-manufactured helicopters where the powerplants are derated and operated with reduced power limits, compared to other helicopter applications. For additional information, contact Robinson Helicopter customer service department by e-mail at customerservice@robinsonheli.com, or the new warranty can be viewed and printed in PDF format on the Robinson website at <http://www.robinsonheli.com>.

Robinson Helicopter Company is the world's leading manufacturer of civil helicopters and builds the two-seat Model R22 and the four-seat Model R44. Robinson helicopters are used throughout the world for a variety of private, business and commercial operations. For more information about Robinson, visit on-line at <http://www.robinsonheli.com>.
